Re: Senate Joint Resolution No.

Dear Madam Chair:

I am writing in support of SJ 18. I am the friend of a returning citizen referred to here as A.C., who has been working hard to return to Missoula and be a solid and contributing citizen after incarceration. I have seen that A.C. has struggled to find his footing because he cannot pursue possible job licenses/certifications. I have seen all of the efforts that A.C. has taken to be the person he can be, but there are several occupational avenues that he is restricted from pursuing despite his job skills and experience.

I greatly appreciate your consideration of my letter, and I thank you for your consideration of Senate Bill SJ 18.
